OBJECTIVE

A highly motivated and recently graduated Computer Science student with a proven ability to lead and mentor. With a strong foundation in both front-end and back-end development, I am proficient in **PHP**, **Laravel**, **MySQL**, and have hands-on experience building interactive user interfaces using **Vue.js** and **React**. I am seeking a challenging role to apply my skills in building elegant, scalable, and impactful solutions.

B.Sc. in Computer Science | Achievers University, Owo, Nigeria

2021 – 2025

CGPA: 4.63/5.00

President, Computer Science Department | SRC Lead | Class Representative

Completed coursework in: Software Engineering (SWE), Data Structures and Algorithms (DSA), Artificial Intelligence (AI), Cybersecurity and Cryptography, Object-Oriented Programming (OOP), Human-Computer Interaction (HCI), Discrete Mathematics & Linear Algebra, Hardware and Computer Architecture, Mathematical Foundations for Computer Science.

Leadership & Activities:

- President, Computer Science Department, leading a team of students and organizing tech events.
- SRC Lead, advocating for the needs of my peers and improving the overall student experience.
- Class Representative, bridging communication between faculty and students.
- Lead and Mentor at ATC Africa, coordinating tech events, mentorship programs, and community-driven projects.
- Speaker at various conferences and webinars on emerging tech trends and career development in software engineering.

TECHNICAL SKILLS

- **Languages:** PHP, Python, JavaScript, C++, C, Java
- **Front-End:** HTML5, CSS3, SASS, Tailwind, Bootstrap, Vue.js, React, jQuery, TypeScript
- **Back-End:** Laravel (MVC, Eloquent ORM, RESTful APIs), Flask, Node, FastAPI
- **Databases:** MySQL, PostgreSQL, SQLite, MariaDB
- **Tools & Systems:** Git, GitHub, Docker, Composer, VS Code, Linux (Ubuntu, Fedora, Kali)

WORK EXPERIENCE

Programming Instructor & Lead Front-End Mentor | MTTI (Midas-Tech Training Institute), Nigeria *June 2024 – October 2024*

- Led successful classes on front-end and back-end development using Laravel.
- Introduced students to foundational languages including C, C++, Java, and JavaScript.
- Mentored learners on using Linux for development and introduced them to secure coding practices.

Community Lead (Remote) | ATC Africa *February 2024 – December 2024*

- Coordinated community-driven tech events and code-along sessions for beginner developers.
- Led discussions on career development and back-end trends, promoting open learning and shared resources.

Junior Web Developer Trainer (Intern) | Ntech Systems, Nigeria *June 2023 – October 2023*

- Assisted in mentoring junior developers, contributing to a 5% improvement in project outcomes.
- Supported live training sessions on HTML, CSS, and JavaScript, focusing on practical projects using Git/GitHub.

Programming Instructor | Leadership Academy, Nigeria *January 2020 – December 2021*

- Taught foundational web development skills (HTML, CSS, JavaScript, Python) to beginners.
- Guided hands-on sessions to help students build basic web pages and interactive elements.

PROJECTS

Front-End Applications

- **Spanish Words Trainer:** Developed a flashcards app using Vue.js for interactive language learning.
- **Quotes & To-Do Apps:** Created Vue.js and vanilla JavaScript applications to manage tasks, track daily quotes, and provide filtering functionalities.
- **Utility Tools:** Built several practical JavaScript applications, including a Weather App, a BMI Calculator, and a Braille App.

Back-End Systems

- **Library Management System:** Designed and built a CRUD-based system for Achievers University using Laravel, managing books and student activities.
- **Hospital & Hostel Systems:** Engineered secure, CRUD-based record systems with authentication for efficient data management.

LANGUAGES

- **English:** Fluent
- **Spanish & French:** Basic
- **Yoruba:** Native

HOBBIES & INTERESTS

Poetry, Music, Chess, Blogging, Researching tech trends, Exploring Linux systems
